Its design is inspired by the fabric samples that are laid atop a cutting table, a complement of sophisticated silhouesette in which the cushions from the simple "extras" take on the leading roles "embracing" the frame at the armrests and backrest which offers pleasantly softness and comfort. Thanks for a wide range of requirements in regards to size and spatial planning: Flora sofa provides spacious seating for one person or - as the name suggests - a cosy spot for 2 love birds, these two models come with one continuous seat cushion – in contrast to the larger 2½-seater and 3-seater versions. Two seaters is an ideal choice for small, urban apartments where it offers full comfort despite its compact dimension. Three seaters is suitable not only for living spaces, but is perfect also for public environments and areas intended for welcoming.
