STONE

Stone·四通

This coffee table embodies the design philosophy of "harmonious interplay between strength and grace," masterfully bridging modern industrial aesthetics with the rhythm of nature. Its monolithic tabletop, precision-cut from a natural stone slab, features a cool, textured surface veined with organic patterns reminiscent of flowing landscapes. The most innovative element lies in its four symmetrically arranged crescent-shaped apertures — fluid arcs proportioned by the golden ratio that echo the poetic silhouette of traditional moon gates in Eastern architecture.

Stone·四通

这款茶几以”刚柔并济”为核心设计理念，
巧妙构筑起现代工业美学与自然韵律的对话关系。
台面精选整块天然石材精工打磨，冷冽的肌理中暗藏山水
纹脉，与温润的北美黑胡桃木饰面形成戏剧性的材质碰撞。最具
突破性的设计表达在于四组对称分布的月牙形开合结构——以黄金分割
比例勾勒的流线型弧面，既呼应东方建筑中的月洞门意象，又以参数化建模技术
实现毫米级的精密咬合。

GEOMETRY

GEOMETRY·几何

茶几以建筑级精度重塑极简主义，90°折角棱线如切割水晶般捕捉光影，无缝拼接结构消隐所有接合痕迹。

GEOMETRY

Crafted with architectural precision, this coffee table redefines minimalist aesthetics. Its razor-sharp 90° edges refract light like faceted crystal, while seamless construction dissolves all traces of joints. The monolithic form merges brutalist integrity with optical sophistication, transforming functional geometry into a sculptural light-play installation for contemporary living spaces.

MD·蒙蒙

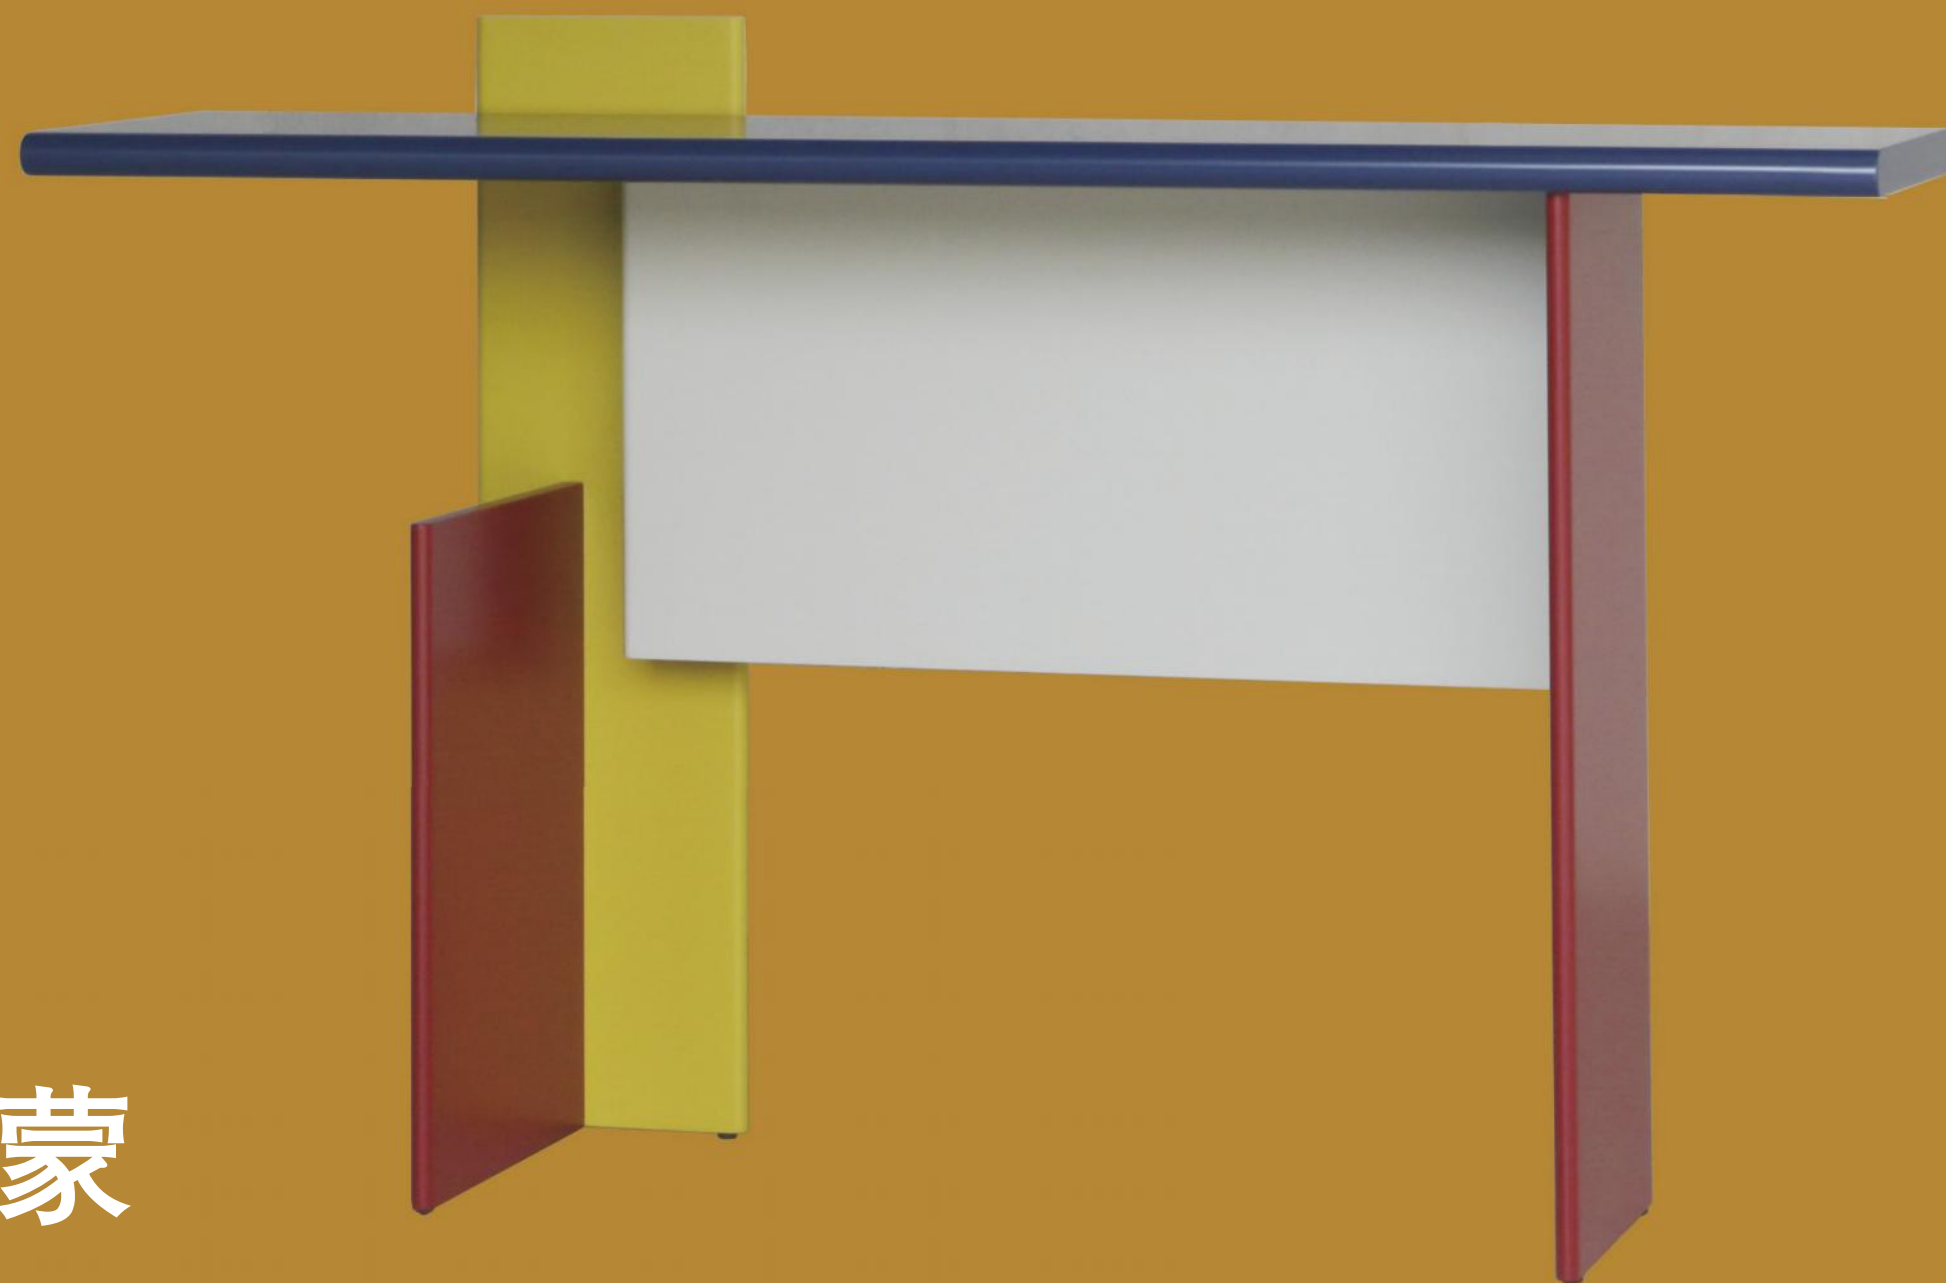

MD· 蒙蒙

以抽象几何演绎极简美学，蒙德里安经典三原色在纯白基底上碰撞，通过非对称色块分割打破视觉惯性，通过黄金比例切割形成动态平衡。圆形边设计让静止的方体瞬间跃动。

·CONSOLE TABLE 玄关桌· A241 ··W150 D40 H93 cm ··

This design embodies minimalist artistry through abstract geometry, where Mondrian's iconic primaries dynamically clash against a pure white base. Asymmetrical color blocks disrupt visual conventions while golden ratio precision orchestrates dynamic equilibrium. The circular-edge detailing animates the cubic form with kinetic tension, transforming static volumes into spatial poetry through chromatic mathematics and sculptural intelligence.
